

SOURCE

looland

The Tacx Source bottle has a progressive, powerful and light design. The bottom of the bottle is tapered and rounded. The flowing lines foster aerodynamics, enhancing the lightweight effect. The press-on lid has a pull lid that can be locked and it has extra grip due to an asymmetrical ring. The Source differs from our other models in that it features a real front side, which is a determining factor for the positioning of logos.

- Press-on lid attached to bottle
- Unique look
- Distinct design
- Real front side; optimum logo presentation
